MATERIAL SPECIFICATIONS

TFX Premium Grade Opaque - A high performance cast PVC film with a special low initial tack adhesive to allow repositioning. Designed for superior quality striping & graphics for the automotive, signage, and commercial industry. Film: 2.0-mil premium cast vinyl, plus a permanent, acrylic, pressure-sensitive adhesive. Liner: 78# white kraft. Exterior Durability: Up to 10 years.

TFX Premium Grade Metallic - A high performance cast PVC film with a special low initial tack adhesive to allow repositioning. Designed for superior quality striping & graphics, for the automotive, signage, and commercial industry. Film: 2.0-mil premium cast vinyl, plus a permanent, acrylic, pressure-sensitive adhesive. Liner: 78# white kraft. Exterior Durability: Up to 5 years.

Ultra Metallic (U/M) - A high performance brilliant metallic cast vinyl film ideal for flat or simple curve applications on automotive, marine, and recreational vehicles. Film: 3.0-mil metalized vinyl plus pressure-sensitive adhesive. Liner: 78# white kraft. Exterior Durability: Up to 5 years.

Black Non-Skid - An anti-slip film in a resilient vinyl. The textured surface provides unusually good anti-slip properties in both wet and dry conditions. Film: 17-mil with acrylic, permanent, pressure-sensitive adhesive. Liner: 78# white kraft. Exterior Durability: Up to 5 years.

Chrome Mirror - This rich luster is manufactured with a polyester base to retain metallic brilliance. Film: 1.0-mil metalized polyester plus a pressure-sensitive adhesive. Liner: 78# white kraft. Exterior Durability: Up to 2 years.

Paint Protection Film - An optically clear film specifically designed to provide superior protection to painted surfaces from the damaging effects of stone chips, road debris, bug stains, and weathering. Film: 8.0-mil aliphatic polyurethane film, plus permanent clear acrylic pressure-sensitive adhesive. Liner: 90# white Staflat. Exterior Durability: Up to 5 years.

Avery Supreme Wrap - A premium quality, flexible, opaque vinyl film for use as vehicle graphics where a high quality film finish and full color wrapping is required. Conformability: Flat, flat with rivets, corrugations, compound curves, and deep recesses. Printability: Not recommended. Film: 3.2-mil cast PVC with a long term removable acrylic adhesive. Liner: 90# Staflat with EZ-RS technology. Exterior Durability: Up to 12 years vertical exposure / Up to 3 years horizontal exposure. (See zone chart information in Avery Dennison Instruction Bulletin 1.3.)

Reflective - A retroreflective engineering grade film which meets or exceeds the applicable requirements for Federal Standards. Designed for high visibility and weatherability (wet application not recommended). Film: 5.5-mil retroreflective vinyl, plus pressure-sensitive adhesive. Liner: 90# white Staflat. Exterior Durability: Up to 7 years.

- Exterior durability is based on proper application, vertical exposure and moderate climate (except Avery Supreme Wrap).
- Any horizontal application, such as on a vehicle hood or roof, is considered non-warrantable (except Avery Supreme Wrap).
- Complete product specification sheets are available upon request.

SUPPLIES

TFX® Cleaner - Specially formulated for cleaning surfaces and removing residue in preparation for vinyl graphics applications. **(A) 1 Gallon refill P/N 905 / 4-Pack 20 oz. bottles**, 1 spray head P/N 904 **(B) 20 oz.
